## MEMBERSHIP CATEGORIES:

1. Re-Manufacturer member
2. Supplier member
3. Re-Builder member
4. Overseas member
5. Associate member

## ABRIDGED DEFINITIONS:

- Must have sufficient fixed plant and equipment to carry out major machining operations in-house.
- Must provide a supply of quality component parts, machinery or processes used within the re-manufacturing industry.
- Must re-build engines using re-manufacturing members for all major machining operations if not undertaken in-house.
- Must be defined above but NOT represented in this country either directly or through any other member.
- Any other company or individual that does not fit into the above categories, but is connected to, or benefits, our industry.

- a) It is a condition of membership that the above company shall have been trading within the industry for a minimum period of twelve months prior to submitting this application for membership.
- b) Full definitions for each membership category are set out in the FER Articles of Association within the FER Manual.
- c) Membership in any category is dependent on the final approval of the General Committee of the FER.
- d) For a Re-Manufacturing or Re-Builder application an inspection of the applicant's premises will be necessary.

**Please attach to this application a comprehensive list of all site plant and machinery, product list or details of processes used/sold.**

When completed, please return this application to:
